

We started Sign Up, Sign Co back in 1989!

Larry & I were simply acquaintances who used to babysit each others kids!

Larry had been in the Sign Industry for a few years, and knew how to cut out dimensional letters.

I was in-between jobs, and one day while taking his kids home saw him making a sign in his garage.

So I asked him, "With your talent and my Smarts, would you like to start a Sign Company together?
I think the answer is pretty obvious, since we're still working together 27 years later!
